PROFESSIONAL SUMMARY

Dedicated **Flutter Developer** with hands-on experience in building cross-platform applications using **Dart**, following **Clean Architecture**. Proficient in implementing **BLoC** and **Provider** state management, integrating **RESTful APIs**, and leveraging **Firebase** services. Proven technical growth through intensive training at **DEPI** and **NTI**, focusing on writing clean, scalable, and high-performance code. Committed to delivering user-centric mobile solutions while applying **SOLID** principles and modern design patterns.

Skills

Mobile Development

- Flutter
- Dart
- Cross-platform Development
- Responsive Design

State Management

- BLoC
- Provider
- GetX

Development Tools

- Android Studio
- Git/GitHub
- Postman
- VS Code
- Figma

Architecture & Patterns

- Clean Architecture
- MVVM
- BLoC Pattern
- SOLID Principles
- Design Patterns

Backend Integration

- RESTful APIs
- Firebase
- Odoo ERP Integration

Additional Technologies

- Firebase Cloud Messaging
- Google Maps
- Payment Gateway Integration: Paymob, Stripe, PayPal
- Google AdMob

Programming Languages

- C++
- C#
- Python

Database & Storage

- Firebase Firestore
- Hive
- Shared Preferences
- Flutter Secure Storage

Soft Skills

- Problem Solving
- Technical Writing
- Team Collaboration
- Searching
- Critical Thinking

EXPERIENCE

Cross Platform Mobile App Developer, *Digital Egypt Pioneers Initiative (DEPI)* | **11/2025 – Present**

- Developed cross-platform mobile apps using Flutter & Dart following Clean Architecture.
- Implemented BLoC/Cubit state management and integrated REST APIs, Firebase, and Google Maps.
- Worked on real-world projects, enhancing problem-solving and teamwork skills.

Mobile App Development Intern, *National Telecommunication Institute (NTI)* | **06/2025 – 08/2025**

- Participated in a 120-hour internship in mobile development with Flutter and Dart.

- Worked on practical app development projects with backend integration and real-time updates.
- Focused on Clean Architecture, State Management (BLoC), and app deployment processes.

PROJECTS

Cairo Metro Planner | Flutter, Dart, GetX GitHub

- Developed a navigation app using **Geolocator** for real-time nearest station detection and GPS tracking.
- Implemented complex routing logic for multi-line transfers and automated fare calculation.
- Integrated **Google Maps API** for interactive route visualization and station locating.

Notes & Task Manager | Flutter, SQLite, Hive GitHub

- Designed a productivity app supporting full **CRUD operations** with **SQLite** for structured local storage.
- Integrated location-based notes that allow users to save and view specific coordinates via **Google Maps**.
- Optimized data persistence using **Hive** and **Shared Preferences** for fast access and offline capability.

Authentication & Cloud Sync App | Flutter, Firebase GitHub

- Implemented secure user authentication flows including login, registration, and password reset via **Firebase Auth**.
- Utilized **Firebase Firestore** for real-time data synchronization across multiple devices.
- Integrated **Firebase Cloud Messaging** for push notifications to enhance user engagement.

E-Commerce Application | Flutter, Provider, REST API GitHub

- Built a full-featured store with product catalogs, dynamic shopping carts, and secure checkout flows.
- Integrated **RESTful APIs** for real-time data fetching and managed app state using **Provider** and **Riverpod**.
- Implemented **Payment Gateway Integration** (Paymob, Stripe, PayPal) for seamless financial transactions.

EDUCATION

- **B.Sc. Computer and Artificial Intelligence**
  Beni-Suef University **2018 - September 2022.**
  Major: Computer Science | Grade: Good

COURSES

Database Fundamentals – Mahara Tech **Sep2025 – Oct2025.**
Object-Oriented Programming (C++) – Mahara Tech **Sep2025 – Aug2025.**

LANGUAGES

Arabic (Native) | English (Very Good)
